Project Initialization and Planning Phase

Date	29 september 2026
Team ID	PNT2022TMID124356
Project Title	SmartLender - Applicant Credibility Prediction for Loan Approval
Maximum Marks	5 Marks

Project Proposal (Proposed Solution) report

The proposal report aims to transform loan approval using machine learning, boosting efficiency and accuracy. It tackles system inefficiencies, promising better operations, reduced risks, and happier customers. Key features include a machine learning-based credit model and real-time decision-making.

Project Overview	
Objective	The primary objective is to revolutionize the loan approval process by implementing advanced machine learning techniques, ensuring faster and more accurate assessments.
Scope	The project comprehensively assesses and enhances the loan approval process, incorporating machine learning for a more robust and efficient system.

Problem Statement

Description:
Farmers may face difficulties in maintaining and organizing farm records manually. Managing crop activities, irrigation, fertilizer and expenses separately can be time-consuming.

Impact:
A centralized system can help organize farm information, reduce manual record keeping and make farm management easier.

Proposed Solution

Develop a web-based Farm Management System using HTML, CSS, JavaScript, Python Flask and MySQL to store and manage farm-related information.

Key Features	• Farmer registration and login. • Farm and crop management. • Irrigation management. • Fertilizer management. • Pest and disease management. • Farm activity and expense tracking. • Reports and dashboard.

Resource Requirements

Resource Type	Description	Specification/Allocation
Hardware		
Computing Resources	CPU and processing resources	Laptop / Computer
Memory	RAM	8 GB
Storage	Storage for project files and database	256 GB or above SSD
Software		

Resource Type	Description	Specification / Allocation
Frameworks	Python framework	**Flask**

Libraries	Additional libraries	**Flask, MySQL Connector, Pandas**
Development Environment	IDE	**VS Code**
Database	Database management system	**MySQL**
